INDEX TO SIGNAL

Volume 46 September 1991 through August 1992

TITLE

A

1. Advances in High Frequency Bolster U.S. Navy's Range ..... *June 115*
2. Aircrew-Fighter Interface Science Applies Simulation ..... *July 45*
3. Airspace Automation Plan Avoids System Skid Marks ..... *June 109*
4. Americans Are Reordering Priorities Between Foreign and Domestic Needs ..... *Jan. 17*
5. An Open Letter to AFCEA Members and Supporters ..... *June 25*
6. Arcane Science Sparkles in Drug Enforcement War ..... *Aug. 21*
7. Armored Combat Simulation Predicts War's Consequence ..... *July 29*
8. Arms Control Verification Demands Resources, Resolve ..... *Dec. 29*
9. Army Satellite Killers Aim At Speedy Prototype Tests ..... *April 58*
10. Army Simulation Command Assists Soldiers, Weapons ..... *July 25*
11. Army's Automation Enables Mobile Combat Engagements ..... *June 83*
12. Artificial Intelligence Cuts Complex Information Snags ..... *Feb. 16*
13. Association History Signals Success ..... *Sept. 54*
14. Association Stands Poised for Surge in Growth, Clout ..... *June 23*
15. Automation and Innovation Set Course for Moon, Mars ..... *April 16*

B

16. Basic Research Paves Way for European Science Trek ..... *Oct. 45*
17. Best Prescription for North Korea's Nuclear Menace Is Dose of Isolation ..... *April 15*
18. British Telecom Seeking Chunk of Global Markets ..... *March 22*

C

19. Canadian Space Ventures Spark Sensors, Robotics ..... *March 48*
20. Combat Camera Moves Imagery Into Vital War Role ..... *Nov. 49*
21. Combat Commanders' Needs Color Intelligence Planning ..... *Aug. 45*
22. Combining Computers, Video Enhances Information Access ..... *Feb. 55*
23. Command, Control System Abets Victory in Gulf War ..... *March 61*
24. Command, Control System Evolves for German Army ..... *May 55*
25. Commanders Garner Wallop From New System Advances ..... *Nov. 71*
26. Communications, Air Power Ride Data Age Roller Coaster ..... *Sept. 43*
27. Computer Imagery Curtails Steep Wind Tunnel Testing ..... *July 19*
28. Computer Simulation Realism Conquers Real-World Barriers ..... *July 41*
29. Congress Reserves Option to Reorganize Intelligence ..... *Aug. 32*
30. Cooperation Seen as Path To Industrial Profitability ..... *Sept. 103*
31. Corporate Group Reorganizes for World Technology Race ..... *April 47*
32. Covert Violence Attracts Small Nation Sponsorship ..... *Dec. 32*
33. Critical Issues Develop From Soviet Breakup ..... *Nov. 15*

D

34. Defense Contracting Faces Dangerous Juggling Act ..... *Oct. 52*
35. Defense Electronics Sales Should Burgeon in 1990s ..... *Oct. 25*
36. Defense Intelligence Rigs for Varied Global Roles ..... *Aug. 35*
37. Defense Technology Drives New Battlefield Systems ..... *Jan. 47*
38. Desert War Was Crucible For Intelligence Systems ..... *Sept. 77*
39. Digital Image Processing Opens Automatic Targeting ..... *May 36*
40. Digital Technology Spawns Vivid Imaging Revolution ..... *May 21*
41. Digital, Optical Science Bear Smart Pocket Communicator ..... *June 28*
42. Diversity, Professionalism Spell Success for AFCEA ..... *Sept. 47*
43. Dodging Automobile Crashes Opens Electronic Passports ..... *June 45*
44. Draft Standards of Ethics Conduct Threaten Association Involvement ..... *Dec. 19*
45. Drug War Progress Hinges on Fast Computer Systems ..... *Sept. 85*

E

46. Economic Spying by Foes, Friends Gains Momentum ..... *July 56*
47. Economic Warfare Emerges as Cardinal Threat in 1990s ..... *Dec. 57*
48. Electronic Combat Efforts Grow Amidst Defense Cuts ..... *Dec. 43*
49. Electronic Countermeasures Clobber Air Defense Radars ..... *March 55*
50. Electronic Einsteins Emerge, Offer Imagery, Moving Might ..... *Jan. 61*
51. Electronic Imaging Flowers Via Software Enhancements ..... *Feb. 41*
52. Electronic Systems Evolve at Roke Manor Laboratory ..... *March 28*
53. Electronic Warfare Explodes as Threats Spawn Diversity ..... *March 35*
54. Electronics Industry Sales Rise as Chip Costs Decline ..... *May 40*
55. Environmental Rehab Will Demand Gargantuan Effort ..... *June 137*
56. Ethics Proposal Threatens AFCEA, Other Associations ..... *Nov. 67*
57. Europe Embraces Simulation As a Vital System Element ..... *July 58*

F

58. Fast Packet, Frame Relay Speeding Data Transport ..... *May 63*
59. Federal Agency Consortium Mobilizes Processing Assets ..... *June 105*
60. Fiber Weaves New Thread in Battlefield Messaging ..... *Nov. 45*
61. Flaring Criticism Signals Ethics Rules Revamping ..... *Dec. 55*
62. Flat Panel Displays Shine ..... *May 32*
63. Flight Control Discoveries Rooted in Deft Simulations ..... *July 32*
64. Fog of Peace Befuddles Alliance Defense Plans ..... *Sept. 97*
65. Foreign Investments Abet Canada's Scientific Base ..... *March 50*

66. France Acquires Voice, Data Combat Radio Transceivers ..... *Nov. 28*
67. France Maintains Robust Military-Industrial Union ..... *April 43*
68. Future Army Systems Flow Via Technical Performance ..... *Jan. 27*
69. Future U.S. Security Hinges on Dominant Role in Space ..... *May 71*

G

70. German Industrial Goliath Seeks Synergy in Diversity ..... *May 59*
71. Global Changes Generate Asia-Pacific Implications ..... *Sept. 19*
72. Global Spectrum Shift May Change Radio Bandwidths ..... *Oct. 41*

H

73. Hardened Computer Modules Aimed at Military Systems ..... *Feb. 59*
74. High Technology Energizes German Reach for the Stars ..... *May 49*
75. Horror in the Skies Won't Disappear Anytime Soon ..... *Oct. 56*
76. Hungary Spearheads Major Telecommunications Rehab ..... *March 41*
77. Hyper Fast Kinetic Devices Aim to Blunt Ballistic Blitz ..... *April 54*

I

78. Image Alternatives Abound, Offering Tactical Bonanzas ..... *Aug. 37*
79. Imagery Storage Counters Growing Paper Avalanche ..... *Feb. 45*
80. Information Exchange Poses Enhanced Warrior Prowess ..... *June 91*
81. Information Explosion Adds Punch to Tactical Weapons ..... *Sept. 25*
82. Information Security Shortfall Needs Integrated Approach ..... *Sept. 89*
83. Intelligence Assets Boost Coast Guard Performance ..... *Sept. 81*
84. Intelligence Reorganization Springs From Inside Forces ..... *Aug. 28*
85. Intelligence Restructuring Sparks CIA, Hill Shoot-Out ..... *June 99*
86. Intelligent Switching Meets High-volume, Fluid Needs ..... *Jan. 72*
87. International Radio Spectrum Allocations Portend Changes ..... *June 69*
88. International Rockets Pose Superpower's Shield Notion ..... *Dec. 23*
89. Interoperability Evolves for Video Reconnaissance ..... *Dec. 61*

J

K

L

90. Larger Data Storage Unit Enables Faster Retrieval ..... *Feb. 49*
91. Laser Scientists Light Up the Heavens for Observation ..... *May 30*
92. Leaner Marine Corps Faces Meaner Global Challenge ..... *June 119*
93. Linkage Schemes Enhance Large Computer Networks ..... *Nov. 63*
94. Looking Ahead, Navy Views USSR as Most Potent Threat ..... *Sept. 74*

M

95. Marine Corps Turns System Integration Upside Down ..... *Nov. 41*
96. Marine Intelligence System Responds to Changing Needs ..... *Nov. 53*
97. Military Electronics Showing Gains in British Defense Budget ..... *Oct. 27*
98. Military, Commercial Gear Train Computer Soldiers ..... *Sept. 36*
99. Mission Planning System Eases Fighter Pilot Load ..... *Feb. 24*
100. Mobile Intelligence Unit Verifies Fielding Mettle ..... *Aug. 49*
101. Mobile Subscriber Equipment Leaps New Network Bounds ..... *Nov. 21*
102. More Pernicious Computer Viruses Menace, Germinate ..... *Dec. 64*

N

103. Naval Academy Generates Satellite Communications ..... *May 76*
104. Navy's Battle Groups Drive Communications Automation ..... *Sept. 39*
105. Navy's Tomahawk Weapon Focus of Multiple Upgrades ..... *Dec. 65*
106. Netting and Signal Processing Stretch Radar Surveillance ..... *Dec. 73*
107. Neural Network Application Ensures Communication Link ..... *Feb. 29*
108. New Agile German Radio Provides High Data Rates ..... *Aug. 51*
109. New Approach Identifies Malicious System Activity ..... *March 65*
110. New Silicon Photo Sensor Sheds Light on Innovations ..... *Sept. 91*
111. New Software Lends Order to Possible Training Chaos ..... *Nov. 59*
112. New Software Paves Path Linking Army Computers ..... *Feb. 33*
113. New World Order Mandates Looser Export Controls ..... *Dec. 51*

O

114. Off-the-Shelf Solutions Find Home on the Range ..... *May 74*
115. Optical Disk Technology Offers Big Space Savings ..... *Feb. 51*
116. Optical Signal Processing Offers C³I Antijamming ..... *Jan. 37*

P

117. Pentagon Picks Technology for New Weapons, Systems ..... *June 51*
118. Pentagon's Research Spurs Precision Imaging Systems ..... *May 67*
119. Photonics Research Quests Imbue Myriad Service Uses ..... *Feb. 35*
120. Precision and Punch Soar With Embedded Computers ..... *Nov. 37*
121. Precision Systems Unfold at Corbeville Laboratory ..... *April 49*
122. Protracted Program Pruning Fosters Manufacturing Glut ..... *June 63*

Q

123. Quantum Well Designs Shed Light on Infrared Sensors ..... *Jan. 55*

R

124. Radar Detection Challenges Submarine Warfare Shroud ..... *March 31*
125. Radical Changes in NATO Reflect An Evolving Europe ..... *Oct. 19*
126. Research Commitment Drives French Industrial Machinery ..... *April 39*
127. Responsive Communications Key to Army Intelligence ..... *Oct. 61*
128. Rising Sun Heads for Moon as Japan Plies High Ground ..... *April 23*
129. Rivals Form Alliance Aimed at Systems Interoperability ..... *Oct. 49*
130. Robust Technology Pursuit Forged in Military Budget ..... *March 67*

S

131. Satellite Learning System Targets 50 Million Scholars ..... *Aug. 58*
132. Scattered Mobile Electronics Demand Trusted Reliability ..... *Jan. 31*
133. Science is Drumbeat, Catalyst for Combat's Changing Visage ..... *May 43*
134. Scrutiny of the Environment Spawns Industrial Cleanup ..... *Dec. 37*
135. Secure, Tactical Networks Built for German Military ..... *May 61*

136. Semiconductor Diode Lasers Offer Military Applications ..... *Jan. 52*
137. Sewn Chaff Aids Attacker, Denies, Screens, Deceives ..... *March 60*
138. Signal Center Electronics Polish Combat Arms Skills ..... *Sept. 33*
139. Signal Corps: From Flags to Satellites ..... *Sept. 31*
140. Silent Running Is Key to F-22 ..... *March 38*
141. Silicon Carbide Advances Promise Versatile Circuits ..... *June 39*
142. Simulation Provokes Novel, Integrated Cockpit Designs ..... *July 37*
143. Slashed Defense Spending Incites Survival Strategies ..... *June 57*
144. Software Glitches, Costs Are Computing's Waterloo ..... *Nov. 56*
145. Software Process Rigors Yield Stress, Efficiency ..... *Aug. 55*
146. Software Purchase Proposal Arouses Industry Firestorm ..... *April 34*
147. Soviet Army Automates for More Rapid Command ..... *Dec. 69*
148. Soviet Union's Breakdown Spurs Increased Vigilance ..... *Oct. 39*
149. Soviet Upheaval Builds on Economic Stagnation ..... *Oct. 17*
150. Speedy Weapons Fielding Bolsters Army Combat ..... *Jan. 19*
151. Subduing Software Monsters Requires Managed Approach ..... *July 53*
152. Subsonic High Flyer Design Aids Atmospheric Research ..... *Feb. 22*
153. Surge in Ruinous Outages Snags Top Level Concern ..... *Dec. 47*
154. Surveillance Proves Primary Need in Tactical Collection ..... *Aug. 41*
155. Switch Could Be Solution in Communications Crisis ..... *Jan. 43*
156. System Extends Real-Time Intelligence to Theater Level ..... *Sept. 70*
157. Systems Integrators Vital to European Military ..... *Oct. 29*

T

158. Taxed U.S.-Japanese Alliance Requires Respect, Cool Heads ..... *March 19*
159. Three-Phase Approach Seeks Seamless, Universal System ..... *Sept. 30*
160. Today's Imaging Advances Offer Pictures Worth a Thousand Words ..... *May 19*
161. Total Quality Management Creates Path for Improved Competitiveness ..... *Aug. 19*
162. Trade Carrot Needed to Enhance Reform in China, Cooperation ..... *July 18*
163. Trenchant Modeling Shapes Alliance Information Systems ..... *April 51*
164. Twenty-First Century Army to Embrace High Technology ..... *July 49*

U

165. U.K. Electronics Industry Gears for 1990s Rivalry ..... *March 25*
166. U.S. Intelligence Responds to Changing '90s Missions ..... *Sept. 67*
167. U.S. Laboratories Probe New Imaging Frontiers ..... *May 27*
168. U.S. Prosperity, Security Linked to Pacific Region ..... *June 77*
169. United Kingdom Gave Good Account in War With Iraq ..... *Oct. 35*
170. United Kingdom Hones Edge in Electronics Competition ..... *March 20*

V

171. Visual Information Takes Flight in the Air Force ..... *May 41*

W

172. World Changes, Economy, Self-Interests Exacerbate Arms Proliferation Threats ..... *Feb. 15*
173. World Market Glimpses Prod Soviet Space Systems Sales ..... *April 31*
174. World War Provided Anvil for Modern Navy Systems ..... *Sept. 42*
